

## 1. Annex to the SimplePay User GTC

### PRIVACY NOTICE

The developer and provider of the SimplePay service, **OTP Mobile Ltd.** (company reg. no. 01-09-174466; seat: 1093 Budapest, Közraktár u. 30-32.; hereafter referred to as: **Simple**) informs the Customers of the data management regarding the engagement of the SimplePay service, on the [www.simplepay.hu](http://www.simplepay.hu) website (hereinafter referred to as: Website) and on the <https://www.facebook.com/SimplePay-674589696081156/> Facebook Page as follows, in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council, the General Data Protection Regulation (hereafter referred to as **GDPR**).

The terms herein and the phrases beginning with capital letters are to be understood as those in the GTC.

#### 1. What personal data do we manage, for how long, for what purposes and by what authorization?

The legal bases for our data processing are the following:

- a) GDPR Article 6 (1) a) where the processing is based on the informed consent of the data subject (hereafter referred to as **Consent**)
- b) GDPR Article 6 (1) b), on where processing is necessary for the performance of a contract to which the data subject is party (hereafter referred to as **Conclusion of Contract**)
- c) GDPR Article 6 (1) c) where data processing is necessary for the fulfillment of or compliance with a legal obligation of the data controller (e.g. obligations with tax statues – hereafter referred to as **Compliance**)
- d) GDPR Article 6 (1) f) where data processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, (a továbbiakban: **Jogos érdek**)
- e) the data processing authorization afforded by Article 13/A of Act CVIII of 2001 on Electronic Commerce and on Information Society Services, where data controllers are authorized to process the natural identification data and home address of the recipients without the need for consent, as required for contracts for information society services, for defining their contents, for subsequent amendments and for monitoring performance of these contracts, for invoicing the relevant fees, and for enforcing the claims arising out of or in connection with such contracts., moreover, where data controllers are authorized to process natural identification data and home address for the purposes of invoicing for the fees payable under the contracts for the provision of information society services to the extent related to the use of information society services, and information relating to the date, the duration and the place of using the service. (hereafter referred to as **E-Commerce**)

The legal basis for the data processing is specified below, per data categories and by reference to the elements of the above list.

### 1.1. Bank card data

When utilising the bank card payment function of the SimplePay Service, the User enters their bank Card data, such as the name on the Card, the card number, the expiry data, the issuing bank name, and the CVC/CVV security code on the applicable online interface. These Card data are not processed by Simple, but rather by OTP Bank Plc., who provides the banking background to the SimplePay Service. When the Card are entered by the Customer, they get recorded directly into the systems of OTP Bank Plc.

Merchant cannot access bank card data.

If the Customer saved or saves the Card data during the payment process for the purpose of later payments, in case of those Merchants which originally concluded a contract with the OTP Bank Plc. for the acceptance of VPOS and which later had been taken over by Simple into the SimplePay system on the basis of the joint agreement between the bank, the Merchant and the Simple, those Card data are also stored directly in the bank's system in the VPOS (Virtual Point Of Sale) belonging to the given Merchant. The bank is the data controller of those saved Card data.

Simple may have access to those Card data saved and stored in the aforementioned bank's system during the payment with that saved Card in the process of reading of the Card data on the basis of the contract the Simple concluded with the bank storing the Card data, on behalf and in the name of the bank, as a data processor. Simple reads those Card data saved and stored in the VPOS belonging to the given Merchant in the bank's system from the VPOS originally created for the given Merchant during the Customer's payment transaction in the SimplePay Services.

### 1.2. Data processed by Simple per mandate from the Merchant

Simple manages the user data given to them by Merchant, provided by the User on the payment interface of the Merchant's webshop per the mandate from Merchant, pursuant to the provisions of the data processing agreement between Merchant and Simple, whereby Simple engages the services of data sub-processors. The data sub-processor of Simple is OTP Bank Plc. in this regard, who perform the authorization of the transactions, and who perform monitoring services by a mandate from Simple, for the purposes of detecting and preventing fraud.

Simple manages the following data, listed per data processors:

Nature and purpose of data processing activity	Data subject category	Data category
Conclusion, monitoring and accounting of payment transactions within the SimplePay service	The Customer conducting payment via SimplePay, on the payment interface of the Merchant	name
		telephone number
		e-mail address
		transacted amount
		IP address

		time and date of transaction
		shipping address
		billing address
Sending of messages, notifications and confirmations regarding payment transactions within the SimplePay service	The Customer conducting payment via SimplePay, on the payment interface of the Merchant	name
		e-mail address
Authorization of transactions, identification of Customers regarding payment transactions within the SimplePay service	The Customer conducting payment via SimplePay, on the payment interface of the Merchant	name
		telephone
		e-mail address
		transacted amount
		IP address
		time and date of transaction
		shipping address
		billing address
Monitoring of SimplePay transactions for the purposes of detecting and preventing fraud, and for exercising rights and claims	The Customer conducting payment via SimplePay, on the payment interface of the Merchant	name
		telephone number
		e-mail address
		transacted amount
		IP address
		time and date of transaction
		shipping address
		billing address

Regarding the data above, Merchant qualifies as data controller, and Merchant's data processing notice holds what data is managed by Merchant, for what purpose, per what legal basis, and for how long. Simple processes this data pursuant to the instructions of the Merchant, and does not use these for their own purposes in any way.

Should User elect on the payment interface of the Merchant to conduct their payment via their bank card registered in the Simple App, Simple shall then be held as a data processor, managing and storing the email address and name of the User that is registered within the Simple App. The recording and storage of the bank card data is done pursuant to the data processing notice of the Simple Application.

### **6. How do we ensure the safety of your data?**

We follow an extensive information security ruleset regarding the provision of safety concerning the data and information under our governance, the knowing and following of which is mandatory for all our staff.

Our staff is regularly trained and coached in matters of data and information security.

#### **6.1. Data security in IT infrastructure**

We store personal data on our central server, to which only a select and close employee group have access, per strict access control rules. We regularly test and check our IT systems in order to ensure and maintain data and information security.

We fulfil data security obligations by complying with the PCI DSS certificate, which entails enacting the strictest banking security regulations regarding our systems and our data governance.

Office workstations are password protected, third-party storage devices are restricted and may only be used following approval.

Protection against malicious software is provided regarding all of the systems and system elements of the Service Provider.

During the planning, development, testing and operation of programs, applications and tools, we address security functions separately and with emphasis.

When allocating authorisations to our IT systems, we pay close attention to the protection of data (e.g. passwords, authorisations) affecting these systems.

#### **6.2. Data security in communications**

Regarding electronically forwarded messages and data, we conduct ourselves regarding our Key Management bylaws. In order to comply with the principle of safe transfer of data, we ensure the integrity of both the data of the controller and the user. For the prevention of data loss and damage, we use error detecting

and correcting procedures. The application's passes, authorization data, safety parameters and other data may only be forwarded under encryption. We use network endpoint-to-endpoint authorization checking in order to ensure accountability and auditability.

Our implemented security measures detect unauthorized modifications, embedding and repetitive broadcasting. We prevent data loss and damage by fault detecting and correcting procedures and we ensure the prevention of deniability.

Regarding the network used for data transmission, we provide defense against illegal connection and eavesdropping per an adequate security level.

### **6.3. Data security in software development and programming**

In development of the Simple Application, we implement the measures of data safety and security even into the planning stage, which we uphold during the entire course of development.

We separate the development environment from the live one, as well as development data from live data, and we depersonalise personal data in development, where possible.

We keep the requirements of safe coding in development, we use platform- and programming language-dependant technologies to avoid frequent damage risks, moreover, we follow the latest industry best practices regarding code examination (e.g. például OWASP Top 10 Guide, SANS CWE Top 25, CERT Secure Coding)

We constantly follow procedures to identify newfound vulnerabilities, we regularly coach our developers regarding data security and we standardise our programming techniques to avoid typical errors.

The checking of completed code is conducted pursuant to the principles of safe coding, and documented with alteration tracking procedures in order to ensure proper documentation.

### **6.4. Data security in document management**

We comply with data security requirements in document management as well, which we stipulate in document management by-laws. We manage documents by pre-set access and authorization levels, based on the level of confidentiality regarding the documents. We follow strict and detailed rules regarding the destruction of documents, their storage and handling at all times.

### **6.5. Physical data security**

In order to provide physical data security, we ensure our physical barriers are properly closed and locked, and we keep strict access control regarding our visitors at all times.

Our paper documents containing persona data are stored in a closed locker that is fire- and theft-proof, to which only a select few have authorised access.

The rooms where storage devices are placed in have been made to provide adequate protection against unauthorised access and breaking and entering, as well as fire and environmental damage. Data transit, as well as the storage of backups and archives is done in these confined locations.

Backup data storage units are stored in a reliably locked area, with containers having a minimum of 30 minutes' fireproofing time.

#### **7. What procedure do we follow upon an incident?**

Pursuant to applicable law, we report incidents to the supervisory authority within 72 hours of having gained knowledge thereof, and we also keep records of them. In cases regulated by applicable law, we also inform subjects of the incidents, where necessary.

#### **8. When and how do we amend this notice?**

Should the scope of data, or the circumstances of data management be subject to change, this notice shall be amended and published on [www.simplepay.hu](http://www.simplepay.hu). Please pay attention to the amendments of this notice, as they contain important information regarding the management of your personal data.
